PROCEEDINGS

OF THE

ROYAL SOCIETY OF LONDON

SERIES A

CONTAINING PAPERS OF A MATHEMATICAL AND PHYSICAL CHARACTER.

VOL. XC.

LONDON:

PRINTED FOR THE ROYAL SOCIETY AND SOLD BY

HARRISON AND SONS, ST. MARTIN'S LANE,

PRINTERS IN ORDINARY TO HIS MAJESTY.

SEPTEMBER, 1914.

LONDON:

ST. MARTIN'S LANE.

CONTENTS.

SERIES A. VOL. XC.

No. A 615.—April 1, 1914.

PAGE

The Relation between the Crystal Symmetry of the Simpler Organic Compounds and their Molecular Constitution.—Part III. By Walter Wahl, Ph.D. Communicated by Sir James Dewar, F.R.S. 1

On a Meteoric Iron from Winburg, Orange Free State. By W. A. Douglas Rudge, M.A. Communicated by Prof. B. Hopkinson, F.R.S. (Plates 1 and 2) 19

Chemical Action that is Stimulated by Alternating Currents. By S. G. Brown. Communicated by Prof. J. Perry, F.R.S. 26

On the Effect of the Gangetic Alluvium on the Plumb-line in Northern India. By R. D. Oldham, F.R.S. 32

Note on Osmotic Pressure. By W. R. Bousfield, M.A., K.C. Communicated by Sir W. Ramsay, K.C.B., F.R.S. 41

On the Formula for Black Body Radiation. By George W. Walker, A.R.C.Sc., M.A., F.R.S., formerly Fellow of Trinity College, Cambridge 46

The Transmission of Electric Waves around the Earth's Surface. By Prof. H. M. Macdonald, F.R.S. 50

The Electrical Condition of a Gold Surface during the Absorption of Gases and their Catalytic Combustion. By Harold Hartley, M.Sc. Communicated by Prof. William A. Bone, F.R.S. 61

The Diffusion of Electrons through a Slit. By J. H. Mackie. Communicated by Prof. J. S. Townsend, F.R.S. 69

No. A 616.—April 28, 1914.

Studies of the Processes Operative in Solutions. XXXI.—Sulphonic Acids and Sulphuric Acid as Hydrolytic Agents—a Discussion of the Constitution of Sulphuric and other Polybasic Acids and of the Nature of Acids. By Henry E. Armstrong, F.R.S, and F. P. Worley, D.Sc., Professor of Chemistry in Auckland University College, New Zealand 73

Studies of the Processes Operative in Solutions. XXXII.—The Influence of Sulphonates on the Hydrolytic Activity of Sulphonic Acids: a Contribution to the Discussion on the Influence of Neutral Salts. By Henry E. Armstrong, F.R.S., and F. P. Worley, D.Sc. 101

Morphological Studies of Benzene Derivatives. V.—The Correlation of Crystalline Form with Molecular Structure: a Verification of the Barlow-Pope Conception of "Valency-Volume." By Henry E. Armstrong, F.R.S., R. T. Colgate, B.Sc., and E. H. Rodd, B.Sc. 111

No. A 617.—May 1, 1914.

PAGE

The Origin of Thermal Ionisation from Carbon. By O. W. Richardson, M.A., D.Sc., F.R.S. 174

The Magnetic Properties of Iron when Shielded from the Earth's Magnetism. By Ernest Wilson. Communicated by Prof. J. A. Fleming, F.R.S. 179

The Boiling-point of Sulphur on the Thermodynamic Scale. By N. Eumorfopoulos, B.Sc., Fellow of University College, London. Communicated by Alfred W. Porter, F.R.S. 189

The Occurrence of Ozone in the Upper Atmosphere. By J. N. Pring, D.Sc., Lecturer on Electro-Chemistry in the University of Manchester. Communicated by Prof. Sir E. Rutherford, F.R.S. 204

On the Diffraction of Light by Spheres of Small Relative Index. By Lord Rayleigh, O.M., F.R.S. 219

The Rate of Solution of Hydrogen by Palladium. By Alfred Holt, M.A., D.Sc. Communicated by Dr. G. T. Beilby, F.R.S. 226

Note on a Functional Equation employed by Sir George Stokes. By Sir James Stirling, F.R.S. 237

No. A 618.—May 28, 1914.

A Determination of the Electromotive Force of the Weston Normal Cell in Semi-absolute Volts. By A. Norman Shaw, M.Sc., 1851 Exhibitioner and King Research Fellow of McGill University, Montreal. Communicated by Prof. H. L. Callendar, F.R.S. (Abstract) 240

On the Mercury Green Line $\lambda = 5461$ Resolved by Glass and Quartz Lummer Plates and on its Zeeman Constituents. By J. C. McLennan and A. R. McLeod, University of Toronto. Communicated by Sir Joseph Larmor, F.R.S. (Plates 3 and 4) 243

On the Electrification Produced during the Raising of a Cloud of Dust. By W. A. Douglas Rudge, M.A. Communicated by Prof. Sir J. J. Thomson, O.M., F.R.S. 256

The Electrical Ignition of Gaseous Mixtures. By Prof. W. M. Thornton, D.Sc., D.Eng., Armstrong College, Newcastle-upon-Tyne. Communicated by Sir Charles Parsons, F.R.S. 272

The Dispersion of a Light Pulse by a Prism. By R. A. Houstoun, M.A., Ph.D., D.Sc., Lecturer on Physical Optics in the University of Glasgow. Communicated by Prof. A. Gray, F.R.S. 298

On Protection from Lightning and the Range of Protection afforded by Lightning Rods. By Sir Joseph Larmor, F.R.S., and J. S. B. Larmor, M.A. 312

No. A 619.—July 1, 1914.

Some Calculations in Illustration of Fourier's Theorem. By Lord Rayleigh, O.M., F.R.S. 318

On the Theory of Long Waves and Bores. By Lord Rayleigh, O.M., F.R.S. 324

PAGE

The Flow in Metals under Large Constant Stresses. By E. N. da C. Andrade, B.Sc., Ph.D., late 1851 Exhibition Scholar of University College, London. Communicated by Prof. A. W. Porter, F.R.S. 329

On the Properties of Magnetically Shielded Iron as Affected by Temperature. By Ernest Wilson. Communicated by Dr. J. A. Fleming, F.R.S. 343

On Newcomb's Method of Investigating Periodicities and its Application to Brückner's Weather Cycle. By Prof. Arthur Schuster, Sec. R.S. 349

On the Effect of the Magneton in the Scattering of α-Rays. By W. M. Hicks, Sc.D., F.R.S. 356

Luminous Vapours Distilled from the Arc, with Applications to the Study of Spectrum Series and their Origin.—I. By the Hon. R. J. Strutt, Sc.D., F.R.S., Professor of Physics, Imperial College, South Kensington 364

On a Type-reading Optophone. By E. E. Fournier d'Albe, D.Sc. (Lond. and Birm.). Communicated by Sir Oliver Lodge, F.R.S. 373

Studies of the Processes Operative in Solutions. XXIX.—The Disturbance of the Equilibrium in Solutions by "Strong" and "Weak" Interfering Agents. By H. E. Armstrong, F.R.S., and E. E. Walker, B.Sc. 375

Similarity of Motion in Relation to the Surface Friction of Fluids. By T. E. Stanton and J. R. Pannell. Communicated by R. T. Glazebrook, F.R.S. (Abstract) 394

The Influence of Molecular Constitution and Temperature on Magnetic Susceptibility. By A. E. Oxley, B.A., M.Sc., Coutts Trotter Student, Trinity College, Cambridge. Communicated by Prof. Sir J. J. Thomson, O.M., F.R.S. (Abstract) 395

No. A 620.—July 20, 1914.

On the Ionisation of Gases by Collision and the Ionising Potential for Positive Ions and Negative Corpuscles. By W. I. Pawlow. Communicated by Prof. Sir J. J. Thomson, O.M., F.R.S. 398

The Determination of Fatigue Limits under Alternating Stress Conditions. By C. E. Stromeyer. Communicated by Prof. W. E. Dalby, F.R.S. 411

Bakerian Lecture: Series Lines in Spark Spectra. By A. Fowler, F.R.S., Assistant Professor of Physics, Imperial College, South Kensington. (Abstract) 426

The Emission of Electricity from various Substances at High Temperatures. By G. W. C. Kaye, B.A., D.Sc., and W. F. Higgins, B.Sc. Communicated by R. T. Glazebrook, F.R.S. 430

An Application of Electrolytically Produced Luminosity, Forming a Step towards Telectroscopy. By L. H. Walter, M.A. Communicated by Sir Alfred Ewing, K.C.B., F.R.S. 437

The Axial Chromatic Aberration of the Human Eye. By P. G. Nutting. Communicated by Sir J. Larmor, F.R.S. 440

On Anomalous Trichromatic Colour Vision. By W. Watson, D.Sc., F.R.S. 443

Note on Mr. Mallock's Observations on Intermittent Vision. By Silvanus P. Thompson, F.R.S. 448

PAGE

The Variation of Electrical Potential across a Semi-permeable Membrane. By Prof. F. G. Donnan, F.R.S., and G. M. Green, M.Sc. 450

Morphological Studies of Benzene Derivatives. VI.—Parasulphonic Derivatives of Chloro-, Bromo-, Iodo-, and Cyanobenzene. By C. S. Mummery, B.Sc. Communicated by Prof. H. E. Armstrong, F.R.S. 455

No. A 621.—August 1, 1914.

Morphological Studies of Benzene Derivatives.—VII. The Correlation of the Forms of Crystals with their Molecular Structure and Orientation in a Magnetic Field in the Case of Hydrated Sulphonates of Dyad Metals. By Henry E. Armstrong, F.R.S., and E. H. Rodd, D.Sc. 463

Dimethylenediol Peroxide (Diformal Peroxide Hydrate). By H. J. H. Fenton, M.A., Sc.D., F.R.S. 492

Absorption of Gases in the Discharge Tube. By F. H. Newman, A.R.C.S., B.Sc. Communicated by the Hon. R. J. Strutt, F.R.S. 499

Photographic Analysis of Explosions in the Magnetic Field. By Prof. Harold B. Dixon, F.R.S., C. Campbell, M.Sc., and W. E. Slater, B.Sc. (Plates 5-8) 506

On the Spectrum of Elementary Silicon. By Sir William Crookes, O.M., P.R.S. ... 512

The Excitation of γ-Rays by β-Rays. By H. Richardson, M.Sc., Beyer Fellow, University of Manchester. Communicated by Prof. E. Rutherford, F.R.S. ... 521

Electrification of Water by Splashing and Spraying. By J. J. Nolan, M.A., M.Sc., University College, Dublin. Communicated by Prof. J. A. McClelland, F.R.S. 531

The Osmotic Data in Relation to Progressive Hydration. By W. R. Bousfield, M.A., K.C. Communicated by Sir W. Ramsay, K.C.B., F.R.S 544

On the Origin of the Electron Emission from Glowing Solids. By Frank Horton, Sc.D. Communicated by Prof. Sir J. J. Thomson, O.M., F.R.S. (Abstract) ... 548

Attempts to Produce the Rare Gases by Electric Discharge. By Thomas R. Merton, B.Sc. (Oxon.). Communicated by Prof. J. N. Collie, F.R.S. 549

No. A 622.—September 7, 1914.

On the Convection of Heat from Small Cylinders in a Stream of Fluid: Determination of the Convection Constants of Small Platinum Wires, with Applications to Hot-Wire Anemometry. By Louis Vessot King, B.A. (Cantab.), Assistant Professor of Physics, McGill University, Montreal. Communicated by Prof. Howard T. Barnes, F.R.S. (Abstract) 563

On Some Sources of Disturbance of the Normal Atmospheric Potential Gradient. By W. A. Douglas Rudge. Communicated by Dr. W. N. Shaw, F.R.S. 571

The 27-Day Period in Magnetic Phenomena. By C. Chree, Sc.D., LL.D., F.R.S. ... 583

The Growth of Metallic Eutectics. By F. E. E. Lamplough, M.A., and J. T. Scott, B.A. Communicated by C. T. Heycock, F.R.S. (Plate 9) 600

PAGE

Wave-lengths of Hydrogen Lines and Determination of the Series Constant. By W. E. Curtis, A.R.C.S., D.I.C., B.Sc., F.R.A.S., Demonstrator of Astrophysics at the Imperial College of Science, South Kensington. Communicated by A. Fowler, F.R.S. 605

On the Measurement of Alternating Electric Currents of High Frequency. By Albert Campbell, B.A., and D. W. Dye, B.Sc. Communicated by R. T. Glazebrook, F.R.S. (Plate 10) 621

On the Conductivity of Salt Vapours. By S. J. Kalandyk. Communicated by Prof. Sir J. J. Thomson, O.M., F.R.S. 634

OBITUARY NOTICES OF FELLOWS DECEASED.

Alexander Buchan ; Sir Walter Noel Hartley ; Hugh Marshall ; Alexander Ross Clarke ..... i—xviii

Index xix
